Projects

Bus Ticket Booking System Using Python Full Stack

- Developed a web-based seat booking system using Python and Django, allowing users to reserve seats in advance for scheduled trips with real-time availability updates.
- Tools Used: Python, Django, SQL, HTML, CSS.

Social Media Platform Using MERN Full Stack

- Designed and implemented a feature-rich social media platform where users can create posts, like, and comment, ensuring seamless user interactions and real-time updates.
- Tools Used: MongoDB, Node.js, React.js, Visual Studio Code.

Online Assignment Submission and Grading System Using Java Full Stack

- Built a Java-based web application that allows students to submit assignments online while enabling instructors to grade them efficiently with automated evaluation features.
- Tools Used: HTML, CSS, JavaScript (React), Java (Spring Boot), MySQL, Eclipse.

Skills/Technologies

Languages: C, Python, HTML, Data Structures, CSS, Java

Technologies: MySQL, Power BI, Tableau, and Excel

Achivements

AWS Certified Cloud Practitioner

Red Hat Certified Enterprise Application Developer

Fintech Professional Certified in Blockchain Technology

Salesforce Certified AI Associate
